RESUME OBJECT

I'm Abdul Suleiman, a results-oriented software developer with 3 years of experience specializing in web development using React.js, Next.js, JavaScript, and TypeScript. Known for building scalable and efficient web applications while prioritizing exceptional user experiences. Proficient in modern front-end technologies and dedicated to staying up-to-date with industry trends and best practices.

Technical Skills:

- Programming Languages: JavaScript, TypeScript, HTML, CSS
- Frameworks/Libraries: React.js, Next.js
- Front-end Development: HTML5, CSS3, SASS/SCSS
- Database: MongoDB, MySQL, and Firebase
- Version Control: Git, GitHub, and GitLab
- Testing: Jest, Enzyme
- Deployment: Heroku, Netlify, and Vercel
- Problem-solving and Troubleshooting
- Attention to Detail
- Strong Communication and Collaboration

EXPERIENCE:

Software Developer - Pramie Technologies (2020- Present)

- Developed and maintained scalable web applications using React.js, Next.js, JavaScript, and TypeScript.
- Create reusable components to improve development efficiency and reduce redundancy.

-
- Implement responsive, user-friendly designs, and optimized performance for exceptional user experiences.
 - Optimize application performance using code splitting, caching, and other techniques.
 - Maintained code quality and ensured timely project delivery by following agile methodologies and code review processes.
 - Utilized Git, Gitlab, and GitHub for version control and collaboration with the team.
 - Conducted comprehensive testing and debugging to ensure reliable and bug-free applications
 - Actively participated in code reviews and provided constructive feedback to improve code quality and maintainability.

EDUCATION:

- Bachelor's Degree in Computer Application - Bangalore University (2019)

Online Courses:

- Traversy Media Web Development Course.
- React - The Complete Guide (Including Hooks, React Router, Redux) Web Development Course From Academind on Udemy.

PROJECTS

[Bloco.co.uk](https://bloco.co.uk)

I played a role in the development and integration of the Bloco e-commerce website for event organizers including event tickets, white label services, admin control, and other add-ons. My responsibilities included implementing reusable components, ensuring responsive design for optimal user experience across devices, and integrating various features such as event ticketing, white label services, admin controls, and add-ons. My focus on developing user-friendly designs contributed to creating an intuitive and visually appealing platform.

[Firstactive365](https://firstactive365.com)

In the Firstactive365 project, I am involved in the development and integration of the CRM web application app. My contributions included implementing

reusable components and designing responsive layouts. By ensuring a consistent and user-friendly experience across platforms, I helped facilitate efficient communication and management between administrators and candidates.

[SadiqAkuki Portfolio Website](#)

I took charge of developing the portfolio website for SadiqAkuki. This involved creating a customized website that showcased Sadiq's work, skills, and achievements. By developing the website, I was able to provide Sadiq with a professional online presence to display his portfolio and attract potential opportunities.
